- Q3: 10 min review site plan & design Guidelines

- 15 Min: General Session + Report Out (**All**)
- 2 Min: Close out and thank you! (**Pascale**)

OVERALL TEAM NOTES

Team 1
Use of healthy materials not on redlist.

Family sized units.

Garden space / greenery, capture the captures that are present or have been present in that space. Have gardents reflect the African American and Native American presecence, there's a blending but also history is expressed. Makes a difference in healing.

Maker spaces

Team 2

Grounding in a non-scarcity mentality

Threshold b/w residence and commmunity based spaces.

Parking and security. How sequencing will allow for delineation of public and private.

Hospice care, care for elderly.

Reail spaces not just for established entrepreneurs but incubator space to help folks get off the ground

Workshop / tool shop, computer lab - create a place for people to leverage and utilize

Consider the project for not just now but the future - be mindful of scale and proportion so it doesnt block views, light

Leverage existing spaces - let LH be LH and Pratt be Pratt

Curbcuts

Thinking around not having parking in a family building. Ride share is costly, public transportation is timely.

Next Steps

GGLO to synthesize what we can and cannot do from the mural board.

Next week AA to start capturing the information, with updates

Early next week anticipate a team meeting

Separate Deliverable with modifications
Slide decks + edited version of recordings to be on ACLT website? Something we can do?

Slide deck - perhaps 3 slides of what we heard - questions only instead of full 49 page deck, more mission focused about each session.

September 3 (Saturday (LABOR DAY WEEKEND)

designing activity?
inperson engagement activities that were effective. WG wants to nail down opportunity.

QUESTIONS FOR BREAKOUT ROOM

QUESTION 01	QUESTION 02	QUESTION 03	QUESTION 04	QUESTION 05	QUESTION 06
What spaces or activities would you like to be public for the entire community to enjoy?	What spaces or activities would you like only the residents to enjoy?	What community spaces would you like to see included in the project?	What are ways the project can relate to the buildings and programs of the neighborhood?	What are some sustainable strategies you would like included in our project?	How can the streetscape, and landscape strategies amplify the history and heritage of the community?
